Re: Letter of Recommendation
Project: Cold Storage Facility Expansion
Freistadt (D&G Transportation) – Germantown, WI

Dear Brad:

It is my pleasure to provide you with a letter of reference regarding the superior performance ESI Group USA executed on the addition to our temperature-controlled, food-grade warehouse. To date this is our second project with ESI Group USA and both have been completed on-time and under-budget.

Our new facility is operational 24/7 and has a high volume of product moving in and out each day. This project was successful because of the careful planning, organized implementation, and communication with the entire ESI project team.

ESI's project management capabilities demonstrate how they take pride in the quality of their work, safety of their jobsites and satisfaction of their customers, vendors, and suppliers.

We are pleased to have partnered with a firm that shares similar values and a vision to be THE LEADER in customer service. I look forward to working with ESI for our future facility needs.

Sincerely,

A handwritten signature in black ink that reads "William G. Feld". The signature is written in a cursive style with a large initial "W" and "F".

William G. Feld – President and Owner
D&G Transportation, Inc.
