Mr. Brad Barke  
ESI Constructors, Inc.  
950 Walnut Ridge Drive  
Hartland, WI 53029

Brad:

On behalf of the 70 employees of Waugh Foods, I personally want to thank you for all your efforts during our construction project performed as Environmental Structures, Inc. After visiting Southern Foods, we knew we wanted to use a design-build company to handle our project and Joe Natcher spoke so highly of your group that it made our choice a little easier. I can truly say that we did make the right choice.

Throughout that project, we encountered different personnel from ESI. First, it was with you; then came Tim Gibbons who enlightened us with his architectural and engineering expertise. The project manager, Rob Hinn was great to work with as he knew when he needed to be the hammer and got the job done. I spent countless hours with Nick Dakouras and Joe Barke, who were highly dedicated to our project and were very willing to get the project done on time and under budget. This was accomplished, and I know that this is very rare with projects such as ours.

I believe that the success of any great company is its people, and since Environmental Structures, Inc. has become ESI Constructors, Inc. with the same staff in place, I will continue to recommend you highly as a firm with the expertise and abilities needed to perform as a major contractor.

Thanks again for a beautiful facility.
