Re: Letter of Recommendation, Caito Fresh Kitchen

Dear Brad,

I would like to express our thanks for the professionalism and partnership that we have experienced in working with ESI in the design and construction of our state of the art Fresh Kitchen facility here in Indianapolis. The delivery of such a complex project on time, on budget, and with a tremendous degree of collaboration throughout the process is a rare accomplishment. Your team was a tremendous asset to Caito in making this major investment and business opportunity come to life.

I spent 10 years directing a ENR 500 design firm with design/build as part of our service offering, so my requirements when we chose a firm for our project were very high. I can say without reservation that I view the project management services and subject matter expertise that ESI brought to our project as exceptional. The result is a facility that we are very proud of, and that our customers view as a significant attraction to do business with Caito Foods.

Please accept our thanks for the contribution ESI has made to our future success!

Sincerely,

Michael Pahud
Chief Operations Officer
